

# Scorpion K7 Plus

## Pro RGB Illuminated Gaming Keyboard

Genius Scorpion K7 Plus is a programmable RGB illuminated gaming keyboard that not only typing **feels like a mechanical keyboard**, but also **control panel for volume and light**.

With **programmable macro** function, set up the special set of macro keys for certain rapid attack to save response time. And, Scorpion K7 Plus' advanced **anti-ghosting design** ensures pressing multiple keys without conflict at the same time. These above make players not to worry about missing any attack during the game.

The illuminated keys of Scorpion K7 Plus with **RGB backlighting** are sharper, bright and clear and help rapid gaming response or typing even in the dark. Brightness of the backlight is adjustable according to the light in the room. Other features such as **Copilot AI key** for Windows 11 or above, **spill resistant design**.

### Programmable Software Download

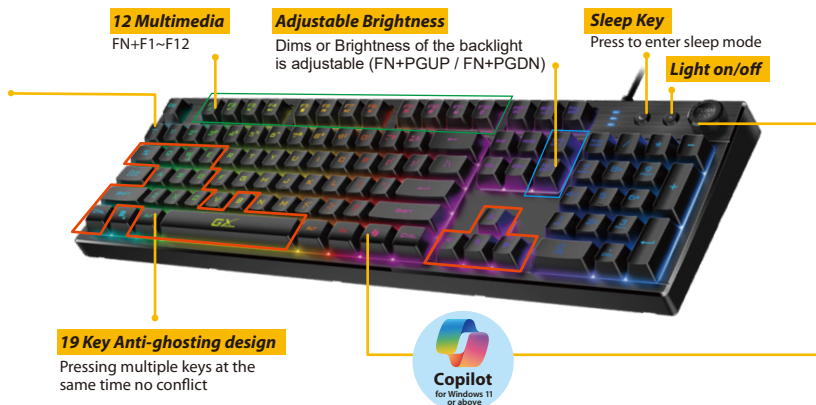

\*You can scan QR code to download the Scorpion K7 Plus software from the official website.

Feels like a mechanical keyboard

Set up the special set of macro keys for certain rapid attack

Knob the default setting is to adjust the volume.

Enable Copilot AI tools on Windows 11 or above
