

- >Green Ethernet technology link down power saving and link on various cable length power saving
- >IEEE 802.3x flow control provides reliable data transfer
- >Plastic case, desktop or wall-mounting design better for home and office use
- >Plug and play, no configuration required

Brief:

The netis ST3105G Gigabit Ethernet Switch provides 5 10/100/1000Mbps Auto-Negotiation RJ45 ports. All ports support Auto MDI/MDIX function, eliminating the need for crossover cables or Uplink ports. Together with the plugand-play & Green Power feature, it may provide you with a low-cost, easy-to-use, high-performance, seamless and standard upgrade to improve your old network to a 1000Mbps network.
